

**FINAL PUBLIC MEETING**

**KICK OFF WORKSHOP**

**NOVEMBER 7, 2019  
DRESDEN, GERMANY**

## PI-SCALE – FINAL PUBLIC MEETING

**Flexible OLED lighting – a dream of many product designers becomes reality!**

Within the project PI-SCALE, funded by the European Union, leading European research institutes have been enabled to build the flexible **OLED pilot line service**

LYTEUS aims to **supply flexible OLED lighting modules** to industrial players in order to prepare their development for new innovative products. Unique results and impressive prototypes have been developed.

## WHAT COMES NEXT?

We invite you to Dresden for a **one-day workshop** following the pro flex conference:

- Explanation of the business offer of the LYTEUS pilot line service
- Presentation of application cases of the PI-SCALE industrial partners
- Details on the service offer by research partners
- Discussion of your ideas with experts

**LYTEUS makes flexible OLED lighting reality – also for your product!**
