CUSTOM-MADE OLED LIGHTING

Fraunhofer FEP

PROJECT MONARCH
Fraunhofer FEP is specialized in development and manufacturing of custom-made OLED modules with a variety of design options as rigid or flexible lighting elements.

With ‘Project Monarch’ we provide an OLED design kit which shows a number of design options in one unique design. This is an inspiration for designers who want to develop the future of lighting.

customized shapes. customized features:
segmentation. transparency. area color. mixed color. light patterns. variable color.
