

6 – 7 October 2026 | Dresden, Germany

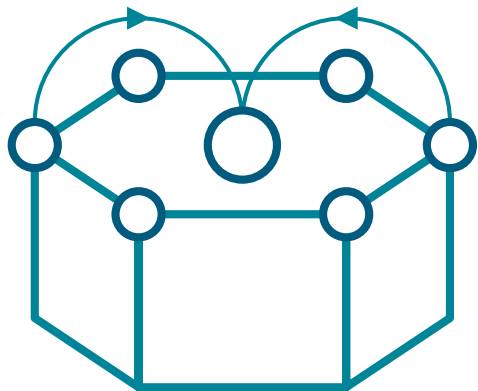

International Workshop on Magnetron Sputter Epitaxy

Register now!

Join us at IWMSE 2026!

The participation is free of charge.

IWMSE

International Workshop on
Magnetron Sputter Epitaxy

Topics covered

Growth, characterization, devices and applications,
and commercialization

Highlight

Sputter Epitaxy of Transition-Metal Group-III Nitrides:
Enabler of Novel GaN-Based Devices

Prof. Armin Dadgar, Otto von Guericke University Magdeburg

Registration

Please consider submitting a presentation abstract.
